- A geometric diagram illustrating the construction of the image A' of a point A through a vertical line (representing a mirror). The diagram shows two rays originating from A and intersecting the vertical line at points labeled 3 and 4. Ray 1 is horizontal, and Ray 2 is at an angle. The extensions of these rays intersect at point A' on the right side of the vertical line. Various numerical labels are present: 6.1 at the top of the vertical line, 2.1 near the intersection of Ray 1 and the vertical line, 5.1 on Ray 1, 5.2 on Ray 2, 6.2 near the intersection of Ray 2 and the vertical line, and 2 at the bottom of the vertical line. A blue mark is visible on the right side of the diagram.
